

# MOBILE PRINTER STATIONS

## 3D PRINTING ON THE EDGE

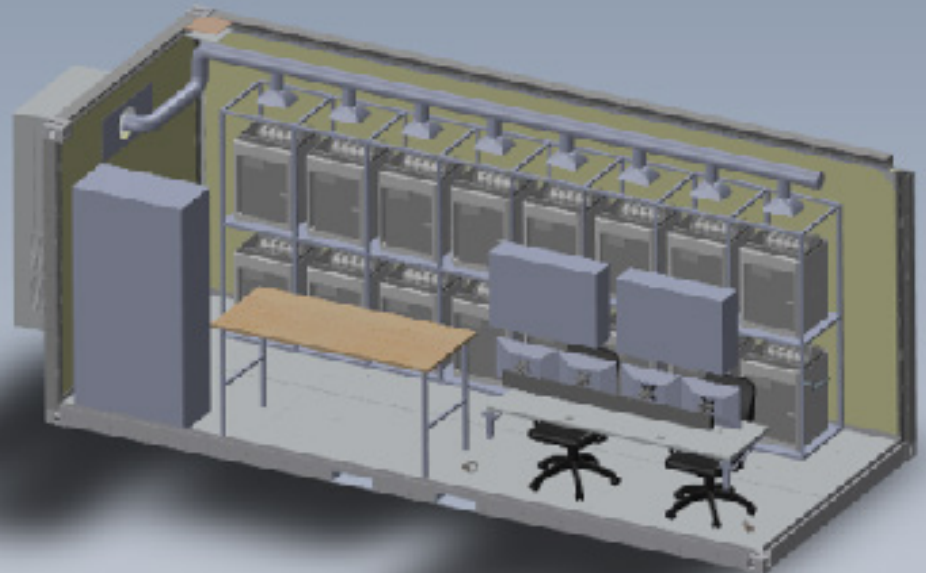

- + Multiple configurations available for 8 to 16 printers
- + Consistent production within a stable environment, including heat and humidity control
- + Increased workspace, with integrated power panels and electrical runs
- + Fully configurable workstations and hard-mount storage lockers

### EXPEDITIONARY 3D PRINTING CAPABILITIES

Expeditionary 3D printing shelters enable on-site manufacturing in forward or remote locations, from on-demand replacement parts to rapid prototyping to mobile production of components or complete products, such as drones.

You get a functional space for consistent 3D printing in an environmentally controlled, modular shelter weighing less than 10,000 lbs. SelectTech handles every aspect of design, fabrication and integration.

- + **20-ft. shelter**
- + **16 3D printers**
- + **2 work stations**
- + **Storage cabinet**
- + **Workbench**

### RELIABILITY IS NON-NEGOTIABLE
